## 3 Generations Dedicated to Quality & Service

Exmoor Trim manufactures an extensive range of seats, hoods and trim for Land Rovers. A vehicle close to our hearts; Julian Gostling's (Managing Director of Exmoor Trim) Father and Grandfather have close connections to this historic vehicle.

Exmoor Trim is proud to have worked with and supplied many famous restorations and projects including HUE, Ken Wheelright's Transporter Collection, Richard Hammond's Series I, King George VI's 86" from Balmoral Estate for Land Rover's 60th anniversary, SVX Defender, Royal Vehicles and many others.

## Our Passion for Quality

We have an uncompromising passion for quality. This has led to an extensive range of products and services covering 60 years of Land Rover production.

We build our products to meet the rugged expectation that is required from any Land Rover component - built to last.

## Manufacturing for Quality

So how do we practically achieve our quality?

- 1** Our ISO 9001 Certification is a badge of quality, showing how importantly we rate quality in our production and business processes.
- 2** Our NVQ & Investors In People training scheme helps our staff to develop in their roles and helps to improve & develop excellence. Enabling us to sustain our world renowned level of craftsmanship.
- 3** A passion for Land Rovers. Julian's enthusiasm for all things Land Rover flows throughout the company.

# Passion for Quality

# Defender Front Seats

## Defender *Elite*

The New Defender *Elite* is the ultimate front seat for all Land Rovers.

The Defender *Elite* has unsurpassed comfort, support, style and hold.

- >> A higher back for enhanced comfort and support for the taller driver.
  - >> Reclining back rest, adjustable twin stalk headrest and removable seat base for battery/storage access.
  - >> Advanced lumbar support.
  - >> Rear pocket as standard.
- See page 69 for swatches

EX8699 - Black Vinyl  
EX8700 - Dark Grey Vinyl  
EX8701 - Denim Twill  
EX8702 - Moorland  
EX8703 - Rayleigh  
EX8704 - Techno  
EX8705 - XS Black Rack  
EX8706 - G4  
EX8708 - Black Span/Mondus  
EX8709 - Black Leather  
EX8710 - Grey Granite Leather  
EX8711 - Outlast Black Canvas

Options - Seat Heater - Pneumatic Lumbar - Electric Lumbar  
Sold in pairs - Supplied with runners

## Defender modular

The New Defender modular is designed for superior on or off road comfort. Ideal for Series or Defender. Stylish integral rugged design.

- >> A higher back for enhanced comfort and support for the taller driver.
  - >> Reclining back rest, integral headrest and removable seat base for battery/storage access.
  - >> Integral modular headrest.
  - >> Rear pocket as standard.
- See page 69 for swatches

EX9769 - Black Vinyl  
EX9770 - Dark Grey Vinyl

EX12690 - Black Span/Mondus  
EX11639 - Black Leather  
EX9783 - Grey Granite Leather  
EX11640 - Outlast Black Canvas

Options - Seat Heater - Pneumatic Lumbar - Electric Lumbar  
Sold in pairs - Supplied with runners

## Le Mans Sport

The New Le Mans Sport has a much longer seat base than normal Defender seats. A deep sport styling for extra hold. A sports seat with a removable seat base.

- >> Removable seat base for easy access to battery/storage compartment.
- >> A great seat for long distance driving.
- >> A higher back for enhanced comfort and support for the taller driver.
- >> Longer seat base for better support.
- >> Rear pocket.
- >> Adjustable headrest.
- >> Reclining and Tilt Mechanism.

EX10728 - Black Vinyl  
EX10729 - Techno  
EX10730 - Black Span/Mondus  
EX10731 - XS Black Rack  
EX10732 - Outlast Black Canvas  
Other trim options available to order.

Options - Seat Heater - Pneumatic Lumbar - Electric Lumbar  
Supplied with brackets and mounting hardware as standard.

# Defender Front Seats

## Monaco G4

The Monaco G4 is a seat designed for rugged off road performance. FIA approved and homologated.

- >> Full steel construction with solid back and base.
- >> Full rally harness facility. (Harness supplied separately from Exmoor Trim.)  
See page 31
- >> Anti-submarine device for crutch strap harness.
- >> Additional side impact protection.
- >> Sub frame and runners available separately.

EX10652 - G4 Monaco  
Other trim options  
available to order.

Options - Seat Heater

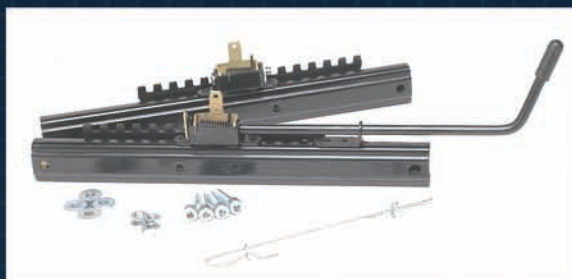

## Monaco Sub Frame

- >> Exmoor Trim Sub Frame for all Cobra seats and Monaco G4 (above).
- >> Sub frame bolts to seat base and corresponds to Land Rover seat box mounting points.
- >> Heavy duty sub frame.

EX9963 - Exmoor Trim Sub Frame

## Cobra Runners

- >> Runners suitable for Cobra seats.
- >> Mounts between the Sub Frame and the seat.

EX9964 - Cobra Runners for Land Rovers

## Seat Heater Kit

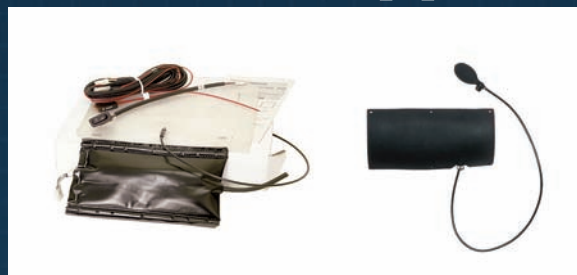

Can also be installed with lumbar support as shown left. Hidden internally in seat.

- >> Exmoor Trim 2 Seat Heater kit enables you to install heaters in your existing seat.
- >> Alternatively, order as an option with your new seat and your seat arrives installed with the Heater Kit.

- >> Supplied with wiring loom & Hi-Lo-Off heat switches for each seat.
- >> Heats both the back and base of seat.
- >> Full automotive safety spec seat heater. Not a "cigarette lighter" heater kit.

EX9969 - Seat Heater Kit

## Lumbar Support

- >> A must for anyone who spends long hours behind the wheel. Electric Lumbar Support enables you to set the back support depth for the lower spine.
- >> Supplied with everything you need to install (wiring loom and inflate deflate switch). Underseat box pump is in a protective pack (shown above).

EX9972 Electric Lumbar Support for one seat

- >> Pneumatic lumbar support performs the same essential task as electric lumbar. Hand pumped with deflate button shown in seat to left.

EX9971 - Pneumatic Lumbar Support for one seat.

EX99712 - Pair of Pneumatic Lumbars

# Defender Front Seats

Left Hand

## Defender Standard Seat

The Exmoor Trim Standard Front Seats are Built for Comfort & Durability.

- >> The back foam has a protective coravin layer to ensure the metal frame does not penetrate the foam (common trim fault).
- >> We use a superior cold cured high density foam. This means the foam lasts longer and retains memory and form.
- >> As with all Exmoor Trim seats they are new frames and are not refurbished seats.
- >> All Exmoor Trim covers have stitched fluting sewn into the cover and are not only heat welded making our covers tough.

See page 69 for swatches

Options - Seat Heater - Pneumatic Lumbar - Electric Lumbar  
Seat Runners, Mechanism Covers & Handles included.

### LEFT HAND SEAT

EX9719 - Black Vinyl

EX9984 - Brown Logo  
EX9983 - Grey Logo  
EX12750 - XS Black Rack

# Defender Front Seats

Left Hand

## Defender Seat Backs

- >> Easy to fit.
- >> Direct replacement for your existing seat back.
- >> All our replacement Backs, Bases and Trim Kits are sewn covers. We do not heat weld our covers to create patterning on seat face.
- >> Exmoor Trim's superior cold cured high density foam with a Coravin internal layer to stop the metal frame from wearing through (common trim fault).
- >> All our seat frames are made by our own high precision tooling.
- >> All Exmoor Trim seat backs have a top metal eyelet ready for a headrest to be fitted.

See page 69 for swatches

Left Hand

EX10001 - Black Vinyl  
EX10002 - Dark Grey Vinyl  
EX10004 - Brushwood  
EX10005 - Caviar  
EX10006 - Neptune  
EX10003 - Denim Twill  
EX10008 - Moorland  
EX10009 - Rayleigh  
EX10007 - Techno  
EX10014 - G4  
EX10012 - Brown Logo  
EX10011 - Grey Logo  
EX12752 - XS Black Rack

Right Hand

## Defender Seat Backs

As Left Hand seat back above.

### Installation

- >> Easy to fit: Remove old mechanism handle & cover. Now release the circlip from the opposite side to the handle and retain. Now remove the two 13mm bolts. Your old seat back is released from your runner. Reverse this procedure to fit the new seat back.
- >> New mechanism covers and handles are available. See page 9.
- >> When purchasing backs and bases don't forget this is an ideal time to have a Heater Kit or Lumbar Support installed. See page 5

Right Hand

EX9987 - Black Vinyl  
EX9988 - Dark Grey Vinyl  
EX9990 - Brushwood  
EX9991 - Caviar  
EX9992 - Neptune  
EX9989 - Denim Twill  
EX9994 - Moorland  
EX9995 - Rayleigh  
EX9993 - Techno  
EX10000 - G4  
EX9998 - Brown Logo  
EX9997 - Grey Logo  
EX12751 - XS Black Rack

## Headrests

Cold cured foam headrest trimmed to match your interior.

### Installation

- >> To remove your headrest you need to release the small metal retaining clip at the end of the stalk. Push the headrest down and then pull hard upwards to release this clip. (If you are having difficulty removing the headrest) you will need to release the trim cover on the seat back and lift the cover upwards to expose the internal metal work. Push the retaining clip in to release. See page 12.
- >> With older seats they can be stubborn to remove. We recommend using a piece of wood under the headrest and hammer to force the headrest up (without damaging the headrest!).

EX10016 - Black Vinyl  
EX10017 - Dark Grey Vinyl  
EX10019 - Brushwood  
EX10020 - Caviar  
EX10021 - Neptune

## Base and Back Foam

### Replacement Base and Back Foams post 1990.

>> High density foam for longer life.  
>> Pre 1990 foams are not available. You will need to use existing foams when retrimming your centre seat.

EX654F - Front Centre Back Foam (300 and TD5) 1990 onwards

### Installation

See page 12

EX7653D - Front Centre Base Foam (300 and TD5) 1990 onwards

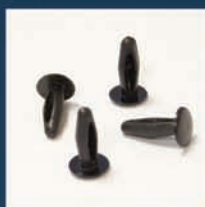

## Glue

A spray adhesive used for bonding covers to foams and foams to frames. One can of spray adhesive is more than enough to retrim two seats.

EX3429 - Spray Glue

## Pins

Retaining pins for seat base covers.  
EX3431 - Single Retaining Pin

## Beading

T bar retaining bead to secure base cover into frame.

EX3430 - Cover Retaining Bead (for one seat base)

# Defender How to Retrim

Exmoor Trim Retrim Kits are a great way to put life back into your tired seats. This is a simple guide to show you how easy it is to do. Many of our Distributors offer an in house professional retrim service for your Defender seats.

Visit [www.exmoortrim.co.uk](http://www.exmoortrim.co.uk) to find your local Distributors.

## To Re-trim the seat base.

- 1) If replacing the foam, remove and discard. Glue the new foam to the cushion pan.
- 2) Turn the new Exmoor Trim cover inside-out.
- 3) Centralise the new cover to ensure the front & rear will fit. Glue the centre panel (ONLY) in place.
- 4) Leave for a short time for the glue to set. Roll the sides of the cover down over the foam, so as to cover.

- 5) Using the rubber finishing strip, carefully trap the sewn-in cord, back into the metal slot all of the way around the frame, with a soft mallet.
- 6) Replace the plastic pins. The vinyl will need to be spiked in the appropriate place.
- 7) Put the metal rod back into the rear panel.
- 8) Tie off the spare cord, cut away any excess & tuck under the foam.
- 9) Pull over the rear panel & tap down the two metal tabs.

## To Re-trim the backrest.

- 1) Start with the new Exmoor Trim cover inside out.
- 2) Push one third of the cover inside itself & pull over the top of the seat.
- 3) Attach the three metal hooks.
- 4) Alternating from side to side, pull the rest of the cover down over the foam. Work the cover into the correct position, by sliding your hands from top to bottom a few times.
- 5) Tuck the spare flaps around the foam at the bottom, to act as a finisher.
- 6) Pull the front and back panels together at the bottom and fix in position with the plastic finisher.

## To Re-trim the Headrest.

- 1) Remove finishing plate from underside of headrest and retain.
- 2) Remove old cover.
- 3) Slide new Exmoor Trim cover over the foam and fix to the frame.
- 4) Replace finishing plate.

Exmoor Trim can supply retrim kits for all Defender Front Seats, 60/40 Second Row Seats and Inward Tip Ups.

NEW from Exmoor Trim - we also offer trim covers for the new Defender 2007 TD4 for Front, Second Row and Rear Seats. See Page 9

when quality counts

**AllMakes4x4**

Allmakes 4x4 is one of the world's leading independent suppliers of parts and accessories for Land Rover vehicles. The Company employs over 140 people at several owned facilities throughout the world that supply customers in 54 countries on 6 continents.

Choice, quality and unique parts symbolise our product offering to our partners throughout the world. We work with people who understand that **quality counts** when you are maintaining Land Rovers.

#### genuine Land Rover parts

Allmakes is an authorised parts distributor for Land Rover Ltd and, as such, has access to all the facilities that any other dealer anywhere in Europe will have. This means that Allmakes can provide its customers with a full range of genuine Land Rover parts at competitive prices.

#### original equipment parts

In order to offer our partners a high quality alternative to genuine parts Allmakes has forged relationships with companies that supply Land Rover factories throughout the world. We ensure that OEM parts are offered at attractive prices. Where possible, these are supplied in OEM image but if this is not available they are classified as Allmakes OE.

#### premium quality replacement parts

For fast moving parts, or for those that fit older vehicles, Allmakes understands the needs for its partners to have competitive offerings. To meet this demand Allmakes secures about 66% of its replacement parts from European suppliers, many of which supply to our unique specifications. Allmakes prides itself on offering the highest quality of replacement parts in our Industry.

#### TerraFirma

To meet the demands of off-roading Land Rover vehicles, Allmakes has developed a unique and exciting range of products marketed under the TerraFirma brand. These products are unique to this Company and have been specifically engineered to enhance the user's off-road capability and experience. The range covers everything you will need to personalise your vehicle, from engine performance power plugs all the way through to remote reservoir shock absorbers.

#### accessories

Land Rovers have always offered their owners the opportunity to personalise their vehicles to meet their own specific requirements. Allmakes has sourced accessories from manufacturers such as Warn, Superwinch, Mant and Exmoor Trim as well as having its own unique every-day range of products. These products are promoted through high quality marketing material both in published and web formats.

#### exmoor trim

Allmakes 4x4 are a recognised distributor of Exmoor Trim products. We find the Exmoor Trim range of Hoods, Seats and interior Trim compliments our extensive selection of parts and accessories perfectly and at a quality that exceeds our expectations. And when you consider that Allmakes 4x4 are the only supplier to have been awarded an ISO9001:2000 certification for "Storage, supply and delivery of genuine, original and replacement spare parts and accessories for vehicles manufactured by Land Rover.", you should be reassured that quality is our top priority.

# Defender 2nd Row Seats

## High and Low Backs

See page 69 for swatches

**Exclusively from Exmoor Trim our High and Low Back Seats add Comfort and Style to your Second Row.**

- >> The Classic High Back offers the second row passenger great comfort and safety.
- >> A direct replacement for your existing standard 2nd row seats.
- >> This seat has been impact tested and meets all EU new vehicle regulations. Has a robust internal steel frame.
- >> Cannot be used with a 60/40 bench seat frame. If you have a 60/40 bench seat and would like to upgrade to our three individual High or Low Backs then you will require our 2nd row reclining kit. [See below.](#)
- >> Seat back will tilt forward to full horizontal.

- >> You can install High and Low Backs in any configuration. High-Low-High, High-High-High or Low-Low-Low etc.

### Installation

- >> Unbolt pivot collar bolts from either side of standard seat back. Remove 2 long bolts from underside of seat base. Now remove seat back locking pin and collar and retain.
- >> To install the new seat base ensure you use the two new bolts and washers supplied.
- >> To install your new seat backs ensure you use the 2 new collar bolts and washers supplied. Remove vinyl from internal captive thread hole using template supplied and bolt in place.
- >> Finally to lock your new High or Low Backs into place remove the vinyl for the internal locking pin on left or right only as required.

**Options - Seat Heater - Pneumatic Lumbar**

Supplied with all new fixings required to install into your existing base frames

## 2nd Row Reclining Kit

Supplied with all new fixings required to install

An Exmoor Trim reclining kit to convert your Second Row to three individually reclinable seats

Image top left shows extent of seat recline

REC2R - Second Row Reclining Kit

- >> Only Exmoor Trim High or Low Back seats can be fitted to the new reclining seat frames.
- >> A single reclining lever for each seat provides individual adjustment and improved legroom.
- >> Optional High or Low Back configuration. [See above.](#)
- >> Not compatible with 3 man bench seats in the rear load area.
- >> The seats recline forwards but cannot be folded down through 2 stages (as 60/40 or Standard Second Row seats can).
- >> Your old second row seats require complete removal.
- >> The vehicle requires some drilling to fit the new frames.

# Defender 2nd Row Seats

## Standard 2nd Row Base

Complete seat shown bottom left

- >> A simple replacement part for the original seat base.
- >> Carpet finish underneath.
- >> Supplied with new bolt fixings.
- >> For extra comfort in second row choose a Classic High or Low Back upgrade seat.

## 4 Point Inertia Seat Belt

4 Point Inertia Seat Belt provides extra safety in the load area.

- >> Universal fit for left or right hand.
- >> Buckle strap has protective rubber sleeve to protect from damage when floor mounted.

EX76-1836-00 - 4 Point left or right Hand Inertia Seat Belt

## Top Mounting Bracket

Mounting bracket required for top pivot point. Supplied with all fixings. Drilling required.

EX395587 - Right Hand Rear Bracket

EX395586 - Left Hand Rear Bracket

When the seat & seat belt is not in use the receiver can be detached from the load area floor and stored attached to the retracted seat belt.

Shown in Black Span/Mondus

# Defender Load Area Seating

## Lock & Fold Seat

- >> The Forward Facing Lock & Fold Seat for Land Rovers is the most safety conscious seat for your load area. Comes complete with underfloor reinforcing plates to ensure security and to meet the exacting standards required for a child friendly certified seat. The seat belt is an integral part of the seat unlike all other seats where seat belts mount to body work. This integral feature requires the seat to be highly engineered to take the loads required on the belt mountings. Impact tested to mark 1 standards (the highest standard achievable for an automotive seat).
- >> We acknowledge that the Lock and Fold Seats do cost more than other Load Area Seats but we decided to not compromise safety or design over price.
- >> From the 18th September 2006 legislation for child seating changed. You must use the correct baby seat for your child.
  - o Seat supplied with full certification.
  - o Fully integrated 3 point inertia belt.
  - o Seat locks & folds away using safety release locking levers.
  - o Wheel arch storage when not in use.
  - o Load area remains clear.
  - o Can be rotated allowing for forward facing, inward facing or rear facing (lap belt required for inward facing).
  - o Arm Rest & Headrest options.

Bearmach's NEW catalogue of accessories to suit ALL Land Rovers

The image displays a collection of Bearmach accessory catalogues for Land Rovers. The central focus is the '12th Edition' 'Complete catalogue of Bearmach ACCESSORIES' which is 'Available for all Land Rovers'. Other catalogues shown include 'DISCOVERY 3', 'DEFENDER', 'RANGE ROVER SPORT', and 'FREELANDER'. These catalogues feature a variety of accessories such as alloy wheels, roof racks, winches, and lighting. The background is a vibrant yellow, and the catalogues are arranged in a dynamic, overlapping fashion.

**Over 180 pages of very desirable accessories to enhance and improve your Land Rover.**

The catalogue includes 352 new products and new sections for:

- ◆ Service Kits
- ◆ Diagnostics
- ◆ Towing
- ◆ Warning & Safety
- ◆ Differentials
- ◆ Alloy Wheels

**Make sure you get your FREE copy by calling into your local BEARMACH distributor or visit our website and go to the mailing list section to register your interest**

# Defender Matting

## Acoustic Moulded Matting System

EX5178 - LT77 Moulded Matting System  
EX6136 - R380 Moulded Matting System

**These mats are vehicle specific.**  
LT77 and R380 relates to gear box type.

**MOD APPROVED.** As used by the MOD to meet new military standards.

Only supplied as 3 piece kit (seat box cover, 1 piece floor mat & tunnel cover, bulk head panel).

Made from cast dense polyurethane, this custom fit mat drastically reduces noise entering the cabin and panel reverberation.

Using technology from the industrial off highway vehicle market this Moulded Matting System is manufactured to the same rigorous OEM standards.

This type of mat is normally found in construction industry equipment, diggers, excavators and agricultural tractors. It is the industrial standard for reducing noise levels inside the operator cabin. It also provides a hard wearing durable surface that withstands the rigours of constant daily use.

- >> Reduces noise - the complete system negates the need for engine and gearbox blankets.
- >> Harder wearing than normal rubber.
- >> Easy to fit, no glue and is transferable.
- >> Easy to clean can be hosed out.
- >> Provides insulation to keep heat out (or in). The material does eventually warm up but reduces the heat entering the cabin.
- >> Fire retardant.

### Front Floor Mats

EX1325 - Front Defender Mats (Pair)

### 2nd Row Floor Mats

EX845 - 110 2nd Row Floor Mats (Pair)

### Load Area Heavy Duty Mats

EX1329 - 90 Load Area Mat  
EX1327 - 110 County Load Area Mat (5 door)  
EX4681 - 110 Commercial Load Area Mat (3 door)  
**MOD APPROVED.**

# Defender Interior

A small amount of drilling is required to accommodate the push stud fixings.  
Easy release Tenax fixings are pre fitted to the hood & attach to the push stud fittings on the vehicle body.

## >>90/110 Inch Truck Cab Hood

Non shrink, non fade and easily cleaned.  
Only available in highest quality Mohair.  
Requires a truck cab hood stick set.  
Two mini 225mm lateral bars supplied.  
Tinted rear window can be unzipped and rolled up.  
All push stud fittings supplied.  
This is a great conversion if you already have a soft top fitted. Simply bring the rear hood stick forward and locate in the holes behind the fronthood stick.  
The horizontal tie bars and centre support hoop become redundant. By releasing the hood from the front screen rail, you will be able to roll the hood backwards behind you.  
The rear curtain must be rolled up.

# Defender Seat Belts

✓ = Suitable for Series

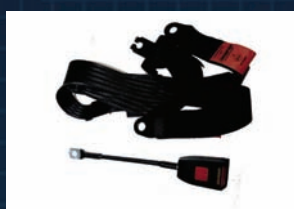

## Static Lap belt EX78-0523-05 ✓

- >> Suitable for all front seats (Series Land Rover's Only) and all rear seating for Series 1, 2 & 3.
- >> Suitable for front centre and load area side facing seats in Defenders.
- >> Basic floor mounting lap belt.

## ALR Retractable Lap Belts EX77-0697-06 ✓

- >> Supplied with protective rubber boot covering reel and buckle to prevent dirt and dust from entering the workings.
- >> Exclusive to Exmoor Trim.
- >> New MOD specification belt. Incorporates protective rubber boot covering the inertia reel.

## Front Centre Belt Floor Mounted 3 Point Inertia ✓

EX294

- >> Suitable for all centre seats.
- >> A great way of achieving a over the shoulder belt. Inertia reel mounts to the floor behind the seat. When you pull the seat belt it rises from behind the seat over your shoulder, across your lap and locks into position as normal creating a three point belt.
- >> Includes all bolts and brackets required to fit the seat belt to your Land Rover including heavy duty under floor plating.

## Front Seat 2 Door Inertia Reel & Buckle Stalk

- >> 2 door left hand front inertia reel belt and left hand buckle stalk.
  - >> Will only fit this seat.
  - >> Supplied with floor mounting bracket.
- May require top mounting bracket. See below  
EX76-1721-05/EX70-1388-09 - LEFT HAND ONLY  
EX76-1721-04/EX70-1388-10 - RIGHT HAND ONLY
- Please note these belts have left and right hand variations.  
✓ Suitable for Series hard top only.

#### 4x4 Products & Accessories

OEC supply and manufacture high quality accessories and products for all makes and models of 4x4 and are the UK distributor of TJM products. We also offer professional custom fabrication with workmanship guaranteed to meet the rigours of all off-roading

#### OEC Land Rover Trim Shop

OEC are authorised distributors for the complete product range from Exmoor Trim including seating, retrim kits, hoods, hood sticks, floor matting and interior trim. Buy online securely via our new OEC Land Rover Trim Shop or contact us direct. Local, national and worldwide shipping

#### Off Road Preparation

Everyone off-roads for the same reason - pleasure. From the occasional greenlane to the serious 'Challenge' competitor, OEC offers off-road vehicle preparation services to suit. We dispel the myths, advise you on what you really need and what really works

#### Overland Preparation

Our outstanding reputation for overland vehicle preparation is due to building vehicles the correct way. From the initial planning to the written quotation, for part or full vehicle preparation we will work with you all the way. No hidden costs or unofficial short cuts

#### The Azalai

When you buy an 'Azalai' you buy an overland vehicle offering total comfort but still maintaining all of the vehicles' off road functions and capabilities. The conversion is very lightweight - weighing only 600g fully kitted - but ultra-tough and durable across all terrain and in all environments. Designed to fit inside a shipping container means it is still usable every day and agile enough for the city or savannah. They are built for longevity: an advanced vacuum moulded composite exterior body is extremely strong and possesses excellent insulation properties, keeping you cool in the desert and warm in the arctic. Models are available for the Land Rover Defender, Toyota Land Cruiser and Iveco Massif - demountable option coming soon!!
